Astronomy 1102
Our Solar System
Discussion Section (202): Monday 2:30-3:20 pm
Discussion Section (209): Wednesday 3:35-4:25 pm
Room: 105 Space Sciences Building

TA: Daisy Leung
Email: tleung@astro.cornell.edu
Office Hours: Friday 1:30 – 3:30 pm
OH Room: 111 Space Sciences Building (a.k.a SSB)
Course website: Cornell Blackboard
Section Website: http://astro.cornell.edu/~tleung/teaching.html

Section:
Come with a calculator!
Please attend and participate in sections, as they will be counted towards your final grade (see lecture syllabus for the grading scheme of this class).

Section is designed to help reinforce lecture material. There will be time for general questions about the material; problems to further elucidate topics, and sometimes more group discussion about particular nuances. Please give me feedback: this will ensure section is as productive as possible!

It should go without saying that all interactions must be non-discriminatory and respectful. If you feel that you are being mistreated by me or other students in your section, please don’t hesitate to talk to me.

Homework:
Homework is due in section. NO LATE homework will be accepted. No softcopies are accepted unless otherwise specified, so please bring your hardcopy to section. Please make sure to write your name, Cornell ID #, section #, and TA name clearly on your homework to avoid getting mixed into other sections’.

Office hour and email:
Feel free to go to visit other TA’s during their office hours. All the office hours are listed on Blackboard.

If you are asking questions through email, please be as specific as possible. The clearer the question is, the likely I can get back to you within a day or two. However, please do not ask questions directly related to the homework, e.g. is this answer correct, how do I do this problem, etc.

I will be glad to help if you are stuck in homework, we can step through it together, but you will have to explain your thought process, and what is it that you would like more elaboration on.

Cheating:
Don’t do it!

Ask questions:
Please do! You are probably not the only one with such question in ones mind.

“He who asks a question is a fool for a minute; he who does not remains a fool forever”
“The important thing is not to stop questioning”
